

Action List from our meeting: Updated 10 June:

First thing is to agree that I have captured, and we all understand the actions.
Then to provide dates. Then to monitor and progress.

Update means pass any relevant material to the group or give short verbal update at the meeting.

Open means I do not have a date or this is no date.

In process means I know a date exists and work is ongoing but I do not have a date.

Also, need some help in GANTT charting this.
